DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Paper #6, filed 14 April 2003. Applicant's amendment of claims 2-3 is acknowledged. Claims 1-3 are under examination.

Withdrawal of Objections and Rejections

2. All objections and/or rejections not explicitly restated or stated below are withdrawn.

Specification

3. The disclosure is objected to under 37 CFR 1.71, as being so incomprehensible as to preclude a reasonable search of the prior art by the examiner. For example, the following items are not understood:

SEQ ID NO: 3 is defined by the specification as the amino acid sequence of PepDef (see page 7). As listed in the sequence listing, SEQ ID NO: 3 is a nucleic acid sequence and could not be PepDef protein.

SEQ ID NO: 4 is defined by the specification as the amino acid sequence of PepThi. The claims are directed to a PepThi protein of SEQ ID NO: 2. The claim appear inconsistent with the specification.

Applicant should submit an amendment which clarifies the disclosure to that of the sequence listing.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3 are directed to a nucleic acid molecule encoding the PepThi protein of SEQ ID NO: 2. The specification described the PepThi protein of SEQ ID NO: 4 (see page 6) and it is unclear as to which is correct. Additionally, it appears that SEQ ID NO: 1 is actually a nucleic acid molecule encoding PepDef. The claim language is not consistent with the teachings of the specification.

Conclusion

5. No claims are allowed.
